

Linear Programming Homework

Directions: Be sure to show all work, communicate your thought process, and justify your reasoning. Remember to check that your answers are complete, correct, and reasonable.

p. 138-139 #1, 5, 9, 11, 13, and 20

*Check your answers to odd numbered problems with the back of the book, and identify any you would like to go over so that we can do so during class.
