

Name: \_\_\_\_\_

Period: \_\_\_\_\_

### Self-Assessment (Unit 7)

**Directions:** *Maintain a "journal" in order to evaluate your learning, and add entries at least twice a week. Be sure to focus on all aspects you have self-assessed in the past, including your conceptual understanding, skills, communication of ideas, reasoning, justification, organization of thoughts, accomplishments, problem-solving skills, challenges, overcoming challenges, growth, progress, overall work ethic, etc. Your weekly progress will be checked at random, and the completed assignment will be due after the unit test.*

*Remember that through completing this assignment, you are preparing yourself for your future in this class, throughout the rest of your high school career, and even after high school! Being able to effectively evaluate your own practices is highly beneficial in general.*

*If you have any questions, please do not hesitate to ask. 😊*
